

# Story 1

Data Collection and Preparation:

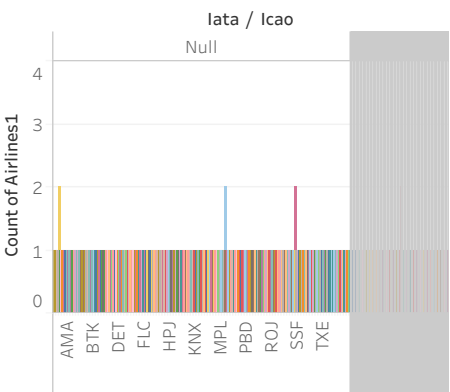

1)Gather data related to air transportation, which may include information about airports, airlines, flight routes, passenger counts, flight delays, and more.

2)Ensure that the data is clean, well-structured, and in a format compatible with Tableau. You may need to perform data cleaning, transformation, and integration from multiple sources.

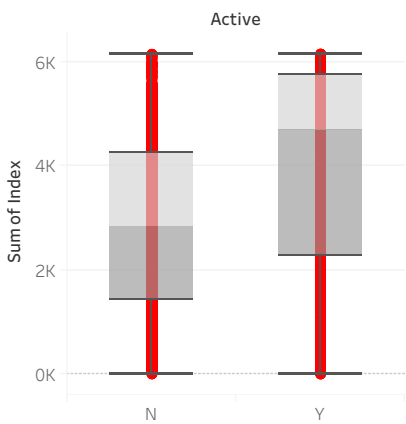

AIRLINE COUNTRY VS  
COUNT OF AIRLINES

AIRLINES IATA & ICAO VS  
COUNT OF AIRLINES

ACTIVE AIRLINES & AIRLINE  
ID VS AIRLINE INDEX

AIRLINES ALIAS & CALLSIGN VS  
AIRLINES
